METAL SECURING U & J PINS

High quality, very strong, 5.5 mm galvanised steel. Use these pins for fixing netting, release pen netting, vermin live catch traps or galvanised wire to the ground as shown below.

7" U Pins **or** 8" J Pins

£25 per 100

£17.50 per 50

SPECIAL OFFERS:
£48 FOR 200 PINS
£132 FOR 600 PINS

JUMBO RELEASE PEN NETTING

Jumbo Mesh is an excellent alternative to wire netting. It is very easy to handle and erect, will not rust and is very strong. The hole size is approx 2" x 2" square.

Jumbo netting is ideal for exposed sites and can also be used as deer fencing. It is a semi-rigid, ultra violet stabilised black polypropylene netting and weighs 80 grams per square metre. It is often used to increase the height of a release pen, with wire on the bottom half.

ROLL SIZE	PRICE	10% OFF FOR 10 ROLLS+
1.2 mtr (4 ft) x 100 mtrs	£73	£65.70
1.5 mtr (5 ft) x 100 mtrs	£91	£81.90
1.8 mtr (6 ft) x 100 mtrs	£108	£97.20

FOX GRID – POP HOLE

These are made from heavy duty galvanised steel. The grids are approximately 90 mm x 255 mm and the overall size is 585 mm x 300 mm plus the legs.

£7 EACH FOR 10 OR MORE

£8 EACH FOR 5

£10 EACH

STRAINING WIRE – 25 KG

2.5 mm diameter, approximately 640 mtrs per 25 kg coil. Straining Wire is tensioned around the release pen to give strong support and provide a connection point for securing Galvanised Wire & Jumbo using our hog rings.

£38 – Standard

£41 – High Tensile

GAMEFLEX SEMI RIGID FENCING

Gameflex is an excellent alternative to wire netting. It is very easy to handle and erect, will not rust and is strong.

Gameflex is a semi-rigid, ultra violet stabilised black polypropylene netting and weighs 70 grams per square metre.

The hole size is approximately 1" x ¾".

This netting is also popular for Fruit Cages

ELECTRIC FENCERS

£90

THE MOSQUITO

The Mosquito fencer has a visible pulse, poor line and battery level indicator lights. It comes with an earth post 38" in height, lead kit and is best used with a 12 volt car battery. It is a compact, weather proof unit and it is ideal for use with our electric netting or 7 strand electric fence wire.

Max Single Strand Fence Length: 18 km

**Max Netting Length: 150 m
Peak Voltage: 5-8.5 kv**

THE BUG FENCER

£58

A light, compact unit with visible pulse indicator.

Max Single Strand Fence Length: 5 km, Peak Voltage: 6 kv.

Can last up to 8 weeks.

Requires 2 x D Type Alkaline Batteries. (Batteries not included)

7 STRAND ELECTRIC FENCE WIRE

7 Strand Galvanised steel electric fence wire.

£13 for 200 mtrs

Using an electric fence wire outside a release pen will help to keep the fox at bay.

**SPECIAL OFFER:
£44 FOR A BOX OF 4**

ELECTRIC NETTING

Our electric netting comes in 50 mtr rolls (the Poultry net also comes in 25 mtr rolls). They all have a strengthened top strand and fixing pegs. All the posts have a spike of 18 cm. The use of 0.2 mm stainless steel conductors connected at both ends of the net create a low resistance giving a more powerful shock.

HEAVY DUTY TARPAULIN 1.5M X 6M

It has a fabric weight of 220 g/m² with aluminium eyelets every 50 cm. It has the maximum UV stabilisation to ensure optimum life time.

The tarpaulin is suitable for covering firewood or making a quick repair to a leaky roof.

£13.50

CORRUGATED CARDBOARD

Often used to create a circle shape draught barrier for young chicks and to help keep them under a Gas Brooder lamp. Corrugated Cardboard is ideal to line Transport Crates.

3 ft x 75 mtrs – **£25** per roll

4 ft x 75 mtrs – **£31** per roll

ALKE THERMOSTATIC GAS BROODERS

WITHOUT FILTERS £152

The Global 5 is an easy to operate, THERMOSTATICALLY controlled gas brooder. This means the brooder automatically maintains the chosen temperature. When there is no need for heat, the pilot light keeps the burner operating on the lowest setting. It is very economic to run in saving propane and labour costs.

**GLOBAL 5 GAS BROODER
WITH FILTERS £160**

The Global 5 design is suitable for up to 1,250 day old chicks & has a large heat range of 2,500–19,500 Btu making it more adaptable than the ceramic brooders.

The strong stainless steel reflector and spherical burner helps to radiate 95% of the heat efficiently downwards over the area whilst brooders with cylindrical burner houses radiate 35% upwards and only 65% downwards. The Global 5 Brooder can be hung at a higher height (between 1.4 mtrs and 1.7 mtrs) than our ceramic brooders enabling it to heat a larger area.

ALL OF OUR BROODERS ARE FITTED WITH A FLAME FAILURE SHUT OFF VALVE AS STANDARD WHICH CUTS THE GAS SUPPLY IF THE FLAME IS EXTINGUISHED.

GLOBAL 8 GAS BROODER

WITH FILTERS £184

The Global 8 design is suitable for up to 2,000 day old chicks and has a very large heat range of 3,000 – 30,000 Btu, making it much more adaptable than our ceramic brooders.

The strong stainless steel reflector & spherical burner helps to radiate 95% of the heat efficiently downwards. The Global 8 Gas Brooder can be hung at a higher height (between 1.8 mtrs & 2 mtrs) than other brooders enabling it to heat a large area.

The spare parts for this brooder are the same as the Global 5 apart from the Jet & the Dust Filters (This gas brooder requires more air than the Global 5 design, so larger filters are fitted)

The Global 8 Gas Brooder is ideal for a larger rearing shed. It is suitable for rearing poultry, ducks, pigs and game birds.

ALL OF OUR GLOBAL BROODERS ARE SUPPLIED COMPLETE WITH A THERMOSTAT, REGULATOR, 3 METRES OF GAS PIPE, JUBILEE CLIPS, S HOOKS AND HANGING CHAINS.

TYPE 21

Suitable for up to 250 birds
Heat Range: 1,400-3,400 Btu

£73

TYPE 41

Suitable for up to 400 birds
Heat Range: 3,000-6,400 Btu

£74

TYPE 81

Suitable for up to 800 birds
Heat Range: 6,000-12,800 Btu

£75

OUR BROODER PRICES INCLUDE AN INSTALLATION KIT WHICH COMPRISES OF 2 METRES OF CHAIN, 'S' HOOKS, JUBILEE CLIPS, A STAINLESS STEEL AIR FILTER, 2 MTRS OF GAS PIPE & AN ADJUSTABLE 1-10 REGULATOR.

BUY A FULL BOX OF 4 ALKE GAS BROODERS & SAVE £4 PER BROODER!

There are three models in the range we supply, the Type 41 being the most popular. They can be controlled manually to adjust the temperature according to the needs of the birds.

As a result of testing and experience we recommend a suspension height of between 0.70 m and 1.10 m for the Type 41 and Type 81 models and between 0.40 m and 0.70 m for the Type 21 model. The gas supply pressure of these brooders is propane at 50-150 mbar. The air supply to the brooder is through a stainless steel dust filter.

All the brooders we sell are manufactured, assembled & tested in Holland using only the very best raw materials. The reflector is larger and stronger than other makes of brooders.

WITH THESE BROODERS APPROXIMATELY 90% OF THE HEAT IS RADIATED TO THE FLOOR.

ALL BROODERS COME WITH FULL OPERATING AND SAFETY INSTRUCTIONS WHICH MUST BE CAREFULLY READ BEFORE USE.

**KEEP YOUR
BIRDS WARM!**

AUTOMATIC DRINKERS

PLASSON BROILER DRINKER COMPLETE

Plasson Broiler Drinkers provide a constant supply of fresh water for chicks and adult birds. They are made from high impact plastic designed to last for years.

- Use as an automatic floor drinker or an automatic hanging drinker
- The sensitive system is activated when a bird drinks as little as 10 ml of water.
- Features a ballast ball and is supplied with 3 mtrs of water pipe per drinker.
- The tray diameter is 34 cm
- 8 -10 drinkers for every 1,000 adult birds.

Box of 10 – **£160**

Special Offer:
Box of 20 – £290

RAINBOW BELL DRINKER

The long stem helps to prevent spillage and the accurate Rainbow valve maintains the correct water level without flooding.

Supplied with 3 mtrs of water pipe per drinker with a union fitted, rainbow valve and a hanging cord.

Box of 12 – **£175**

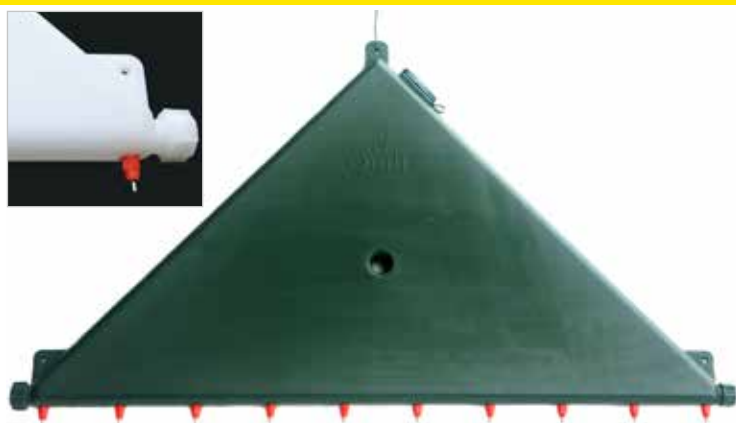

Rainbow Valve **£8**

Nipple Drinker Valve **£8**

NIPPLE DRINKERS – GREEN OR WHITE

This Nipple Drinker helps to eliminate cross infection via the water supply. They are ideal for taking birds from day olds up to adult and each drinker will supply approximately 250 birds. The thin design means they can be easily stored at the end of the season. Each drinker is supplied with 10 nipples fitted, hanging cord and a drinker valve. You may require water pipe & fittings.

Kania 2000 Trap £60

Kania Tunnel £12.50

B.E.T.A BAIT STATION

£6

This bait station is lockable & suitable for indoor & outdoor use. Our plastic mouse trap fits inside this Bait Station & it comes with a wall mounting plate.

WCS TUBE TRAP

38 cm long x 11.5 cm diameter

To attract & kill Mink, Squirrels, Rats, Stoats & Weasels. It is a quality trap that incorporates a tunnel making it easy to comply with UK regulations.

This tunnel also has the added advantage that catches are hidden from public view. The WCS tube trap can be used either baited or un-baited. The trap itself acts as an attractant to inquisitive targets, or it can be sited as a 'run-through'.

£48

ONE RAT BAIT STATION

£8

This bait station is lockable & suitable for indoor & outdoor use. Our plastic mouse & plastic rat traps fit inside this Bait Station

EZ BAITER TUBE

Check and refill without handling the station. Includes an internal tray to hold the bait.
